

PINNACLE VALUE FUND® A SERIES OF THE BERTOLET CAPITAL TRUST

ANNUAL REPORT

DECEMBER 31, 2016

Pinnacle Value Fund Annual Report

December 31, 2016

Dear Fellow Shareholders,

Our Fund's NAV rose 16.5% in 2016. At year end we held 58 positions with a weighted average market cap of \$330 million, a dividend yield of 1.2%, and a price to book value ratio of 80%.

Total Return	2016	2015	2014	2013	2012
Pinnacle Value Fund	16.5%	(6.0)%	4.8%	16.6%	18.9%
Russell 2000	21.4	(4.4)	4.9	38.6	16.3
S&P 500	12.0%	1.4%	13.7%	2.0%	15.9%

(All returns include dividend reinvestment. Past returns do not predict future results. Results do not reflect taxes payable on distributions or redemptions of shares held in taxable accounts.)

The State of the Market

Most US stock markets closed 2016 near record highs. Dow 20,000 has become the new mantra and will probably be surpassed in the near future. But the year didn't start out that way. At one point in February the S&P 500 was down about 15% as investors worried about a possible earnings slowdown. It was a year of surprises and volatility marked by such events as the Brexit vote in June and the US Presidential vote in November. Surprisingly, the dollar reached a multi-year high on expectations of higher US interest rates and robust economic growth.

The Fed raised short term interest rates in December and signaled another 2-3 hikes in 2017, all of which will be data driven, of course. Long term interest rates also appear to be rising with the yield on the 10 year treasury bond almost doubling to 2.5% in the last six months. This may impact mortgage rates and installment rates for big ticket items like autos and appliances. As you know, higher interest rates usually hurt stocks in a couple ways: it raises the cost of corporate borrowing and compresses price-earnings (P/E) ratios. This is important since much of the market's rise in recent years has been driven by Fed induced lower rates and higher P/E ratios.

The big question is how we will make money in 2017? This is a question we've debated with our peers and no one has a good answer. The rising tide of worldwide liquidity has lifted all boats resulting in high stock prices and stretched valuations. Compelling ideas remain few and far between. The markets remain high reflecting optimism that the new administration will follow through on campaign promises of lower corporate taxes, infrastructure spending and deregulation. If none of these occur (or are delayed), the market (including US small cap value) may be vulnerable. Since we expect 2017 to be a year of surprises and volatility in both equities and fixed income, investors may be well advised to fasten their seatbelts.

Commentary/Portfolio Activity

As can be seen from the above box scores, US equities had a strong 2016 with the small cap benchmark R2000 rising 21.4%. Pinnacle Value returned 16.5% which lagged the benchmark, but given the conservative, risk averse nature of our portfolio, and our large cash holdings throughout the year, we consider our performance acceptable. We are well positioned for any dislocation that may occur should any unanticipated events occur during the year.

In terms of portfolio positioning, energy remains our largest segment at 20% of net assets. Recently I returned from New Orleans where I attended the Workboat Trade Show and visited some of our companies including Gulf Island Fabrication, one of our larger positions. The mood at the trade show was optimistic with most participants believing that energy prices bottomed in February 2016 and that perhaps \$50-60 per barrel oil prices may be sustainable. Most of our energy holdings have rebounded nicely in 2016 and we've trimmed some positions. A couple (Tidewater, Gulfmark Offshore) are still struggling and are plagued by too many offshore supply vessels (OSVs) competing for limited offshore rig business. Both are restructuring their balance sheets to reduce debt which we hope is not too dilutive to common shareholders.

As you can see from the Table following, several securities made positive contributions to the Fund's performance. Global Power Equipment is a turnaround where actions by the new management team to fix the business are finally gaining traction. Gulf Island Fabrication, Unit Corp. and Dawson Geophysical are all energy plays that responded favorably to better oil/gas prices and sentiment. ASA Ltd. is a precious metals closed end fund that rose throughout the year until the Brexit vote in June at which point we exited part of our position.

Major detractors from performance include First Acceptance Insurance and the aforementioned Gulfmark Offshore and Tidewater. First Acceptance is suffering from poor underwriting and claims management which led to the recent dismissal of the CEO. This has been a troubled position for a while but the balance sheet remains strong and we believe their franchise is intact. Gulfmark and Tidewater remain works in process, we are in constant contact with managements.

By now you should have received your yearend statement. The Fund distributed \$1.11 of long term capital gains in late December so you should have received a Form 1099-DIV for 2016 if you hold your shares in a taxable account. Should you have any questions about your account or the Fund, don't hesitate to call or write. Thank you for your continued support of our work.

John E. Deysher President & Portfolio Manager 212-605-7100 Pinnacle Value Fund 745 Fifth Ave. - 2400 New York, NY 10151

The accompanying notes are an integral part of the financial statements.

Notes to Financial Statements December 31, 2016

1.) ORGANIZATION:

Pinnacle Value Fund ("Fund") is registered under the Investment Company Act of 1940 as an open-end investment management company and is the only series of the Bertolet Capital Trust, a Delaware business trust organized on January 1, 2003 ("Trust"). The Trust's Declaration of Trust authorizes the Board of Trustees to issue an unlimited number of Fund shares. Each share of the Fund has equal voting, dividend, distribution, and liquidation rights. The Fund's investment objective is long term capital appreciation with income as a secondary objective.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services-Investment Companies."

2.) SIGNIFICANT ACCOUNTING POLICIES SECURITY VALUATION:

The Fund will primarily invest in equities and convertible securities. Investments in securities are carried at market value. Securities traded on any exchange or on the NASDAQ over-the-counter market are valued at the last quoted sale price on that day. Lacking a last sale price, a security is valued at its last bid price on that day, except when, in the Adviser's opinion, the last bid price does not accurately reflect the current value of the security. When market quotations are not readily available, when Adviser determines the last bid price does not accurately reflect the current value or when restricted securities are being valued, such securities are valued as determined in good faith by Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees.

Fixed income securities are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when Adviser believes such prices accurately reflect the fair market value. A pricing service uses electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading lots of debt securities without regard to sale or bid prices. When prices are not readily available from a pricing service, or when restricted or illiquid securities are being valued, securities are valued at fair value determined in good faith by Adviser, subject to review of the Board of Trustees. Short term investments in fixed income securities with maturities of less than 60 days when acquired, or which are within 60 days of maturity, are valued by using the amortized cost method.

The Trust has performed an analysis of all existing investments to determine the significance and character of all inputs to their fair value determination. Various inputs are used in determining the value of each investment which are summarized in the following three broad levels:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities,

interest rates, prepayment speeds, credit risk, yield curves & similar data.)

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining fair value which may require a high degree of judgement)

The availability of observable inputs may vary by security and is affected by a wide variety of factors including type of security, liquidity and other characteristics unique to the security. If valuation is based on models or inputs that are less observable or unobservable in the market, determination of fair value requires more judgment. Thus, the degree of judgment exercised in determining fair value is greatest for Level 3 investments. Inputs used in valuing securities are not indicative of associated risks. Transfers between levels are recognized at the end of a reporting period. Transfer from Level 1 to Level 2 results when a security priced previously with an official close price (Level 1) has no official close price so the bid price is used. The below table summarizes the inputs used at December 31, 2016:

	Level 1	Level 2	Level 3	Total
Equity (a)	\$ 37,259,218	402,668	-	\$ 37,661,886
Money Market Funds	31,067,429	-	-	31,067,429
Investments at Market	\$ 68,326,647	402,668	-	\$ 68,729,315

(a) See Schedule of Investments for industry breakout.

There were no transfers between levels at year end.

The Fund did not hold any Level 3 assets (those valued using significant unobservable inputs) at any time during the year ended December 31, 2016. Therefore a reconciliation of assets in which significant unobservable inputs were used in determining fair value is not applicable.

The Fund has adopted the financial accounting reporting rules required by the Derivatives and Hedging Topic of FASB Accounting Standards Codification (FASB ASC). Fund is required to include enhanced disclosure that enables investors to understand how and why a fund uses derivatives, how they are accounted for and how they affect a fund's results. For the year ended December 31, 2016, the Fund held no derivative instruments.

SHORT TERM INVESTMENTS:

The Fund may invest in money market funds and short term high quality debt securities such as commercial paper, repurchase agreements and certificates of deposit. Money market funds typically invest in short term instruments and attempt to maintain a stable net asset value. While the risk is low, these funds may lose value. At December 31, 2016 the Fund held approximately 46% of net assets in money market funds. These include the First American Government Obligations Fund which normally invests in Government and Agency securities with an objective of maximum current income consistent with capital preservation and maintaining liquidity and the Invesco Liquid Assets Portfolio Fund.

As of December 31, 2016 the Fund had approximately 44% of its assets in First American Government Obligation Fund - Class Z. The investment in the First American Government Obligation Fund - Class Z represents approximately 0.1% of that fund's net assets which was approximately \$30.2 billion dollars at December 31, 2016. If the Adviser determines that it is in the best interest of Fund shareholders, the Adviser may redeem this investment. Further information on these funds is available at www.sec.gov.

SECURITY TRANSACTIONS AND INVESTMENT INCOME:

The Fund records security transactions based on a trade date. Dividend income is recognized on the ex-dividend date, and interest income is recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the lives of the respective securities.

INCOME TAXES:

Federal income taxes. The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Distribution to shareholders. Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. All short term capital gain distributions are ordinary income distributions for tax purposes.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is "more-likely-than-not" to be sustained upon examination by tax authority. Management has analyzed the Fund's tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on the prior three year returns or expected to be taken on the Fund's 2016 tax return. The Fund is not aware of any tax position for which it is reasonably possible that the total amount or unrecognized tax benefits will change materially in the next 12 months.

GAAP requires that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset per value share. During the year ended December 31, 2016, accumulated net investment loss was decreased by \$346,359, and accumulated net realized gain was decreased by \$346,359.

ESTIMATES:

Preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement date and reported revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Fund imposes a redemption fee of 1.00% on shares redeemed within one year of purchase. The fee is assessed on an amount equal to the Net Asset Value of the shares at the time of redemption and is deducted from proceeds otherwise payable to the shareholder. For the year ended December 31, 2016 and December 31, 2015, \$3,423 and \$12,158, of early redemption fees, respectively, were returned to the Fund through shareholder redemptions.

3.) INVESTMENT ADVISORY AGREEMENT

The Fund has entered into an Investment Advisory Agreement with Bertolet Capital LLC (Adviser). Under the Agreement, Adviser receives a fee equal to the annual rate of 1.25% of the Fund's average daily net assets. For the year ended December 31, 2016, Adviser earned \$776,073 in fees.

A Fund officer and trustee are also an officer and trustee of the Adviser. Advisory Agreement provides for expense reimbursement and fee waivers by Adviser, if Fund Annual Total Expenses exceed 1.49%, of average daily net assets through April 30, 2017.

Adviser will be entitled to reimbursement of fees waived or reimbursed by Adviser to the Fund. Fees waived or expenses reimbursed during a given year may be paid to Adviser during the following three year period if payment of such expenses does not cause the Fund to exceed the expense limitation. Adviser had no recoupment in 2015 and \$0 available for recoupment at the year end December 31, 2016.

4.) PURCHASES AND SALES OF SECURITIES

For the year ended December 31, 2016, purchases and sales of investment securities other than U.S. Government obligations/short-term investments totaled \$14,923,422 and \$18,602,189, respectively.

5.) FEDERAL TAX INFORMATION

Net Investment income/(loss) and net realized gains/(losses) differ for financial statement and tax purposes due to differing treatments of wash sale losses deferred and losses realized after October 31, 2016. Differences between book basis and tax basis unrealized appreciation/(depreciation) are attributable to tax deferral of losses.

For the year ended December 31, 2016 the Fund paid a long-term capital gain distribution of \$1.1130 per share.

For the year ended December 31, 2015 the Fund paid a long-term capital gain distribution of \$1.39208 per share.

The tax nature of distributions paid during the year ended December 31, 2016, and the year ended December 31, 2015 is:

	<u>2016</u>	<u>2015</u>
Net Investment Income	\$ 0	\$0
Long Term Capital Gain	\$ 4,429,286	\$ 5,147,187

At December 31, 2016, the components of accumulated earnings/(losses) on a tax basis were as follows:

Costs of investments for federal income tax purposes	<u>\$ 59,995,776</u>
Gross tax unrealized appreciation	\$ 11,782,567
Gross tax unrealized depreciation	(3,049,028)
Net tax unrealized appreciation	8,733,539
Accumulated realized gain on investments –net	1,145,706
Total Distributable Earnings	\$ 9.879.245

6.) SUBSEQUENT EVENTS

Management has evaluated Fund related events and transactions occurring subsequent to year end. There were no events or transactions that occurred during this period that materially impacted the Fund's financial statements.

7.) COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Fund may enter into contracts that may contain a variety of representations and warranties and provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, management considers the risk of loss from such claims to be remote.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Trustees Bertolet Capital Trust New York, New York

We have audited the accompanying statement of assets and liabilities of Pinnacle Value Fund, a series of shares of Bertolet Capital Trust ("Trust"), including the schedule of investments, as of December 31, 2016, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Trust is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2016, by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Pinnacle Value Fund as of December 31, 2016, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

TAIT, WELLER & BAKER LLP

Philadelphia, Pennsylvania February 23, 2017

PROXY VOTING (Unaudited)

A description of the policies and procedures the Fund uses to determine how to vote proxies relating to portfolio securities and information regarding how the Fund voted those proxies during the most recent 12 month period ended June 30, are available without charge upon request by calling 877-369-3705 or visiting www.pinnaclevaluefund.com or www.pinnaclevaluefund.com or <a href="https://www.pinnaclevaluef

QUARTERLY PORTFOLIO HOLDINGS (unaudited)

Fund files a complete schedule of investments with the SEC for the first and third quarter of each fiscal year on Form N-Q. Fund's first and third fiscal quarters end on March 31 and Sept. 30. Form N-Q filing must be made within 60 days of the end of the quarter, and Fund's first Form N-Q was filed with the SEC on Nov. 29, 2004. Fund Form N-Qs are available at www.sec.gov or may be reviewed and copied at the SEC's Public Reference Room in Washington, DC (call 1-800-732-0330 for information on the operation of the Public Reference Room). You may also obtain copies by calling the Fund at 1-877-369-3705.

SUPPLEMENTAL INFORMATION

The following table provides biographical information with respect to each Trustee.

Independent Registered Public Accounting Firm: Tait, Weller & Baker LLP, 1818 Market St,- 2400, Philadelphia PA 19103

Expense Example (Unaudited)

As a shareholder of the Pinnacle Value Fund, you incur ongoing costs which typically include management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, July 1, 2016 through December 31, 2016.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which are not the Fund's actual returns. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Pinnacle Value Fund	Beginning Account Value July 1, 2016	Ending Account Value December 31, 2016	Expenses Paid During the Period* July 1,2016 to December 31, 2016
Actual	\$1,000.00	\$1,098.30	\$7.65
Hypothetical (5% Annual Return before expenses)	\$1,000.00	\$1,017.85	\$7.35

^{*} Expenses are equal to the Fund's annualized expense ratio of 1.45%, multiplied by the average account value over the period, multiplied by 184/366 (to reflect the one-half year period).

AVERAGE ANNUAL RATE OF RETURN (%) OR PERIOD ENDED DECEMBER 31, 2016

	1 Year	3 Year	5 Year	10 Year
Pinnacle Value Fund	16.51%	4.70%	9.73%	6.39%
Russell 2000 Index	21.31%	6.74%	14.45%	7.07%

Chart assumes an initial investment of \$10,000 made on 1/1/2007. Total return is based on the net change in NAV and assuming reinvestment of all dividends and other distributions. Performance figures represent past performance which is not predictive of future performance. Investment return and principal value will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. All returns reflect reinvested dividends but do not reflect the impact of taxes.

Throughout the period shown, the investment adviser has voluntarily waived and reimbursed certain expenses of the Fund. Without such waivers and reimbursements returns would be lower.
