(all returns include dividend reinvestment. Past returns do not predict future results. Results do not reflect taxes payable on distributions or redemptions of shares held in taxable accounts.)

Fund Performance

Our Fund rose 10.7% in 2019 while the benchmark R2000 rose 26.5%. Our underperformance was driven by a few factors. First, our cash levels remained high throughout the year. The market provided very few opportunities to deploy cash in meaningful amounts at reasonable valuations. Proceeds from positions sold were temporarily placed in government money market funds yielding 1.5%. Next, investors favored high growth companies in high growth industries like IT, technology, healthcare and biotech. Already enthusiastic about high priced growth stocks, many turned euphoric driving prices even higher. Finally, we had some positions which did not meet expectations, we are monitoring these closely.

While disappointed with our relative results, we feel our portfolio is well positioned for the current market cycle. Most positions have specific potential catalysts that, if realized, should trigger upside moves. Capable managements are critical to the Fund's success and we are pleased with the caliber of most of our management teams. Virtually all of our companies have viable business models and strong balance sheets providing the ability to weather economic storms. Finally, cash provides the capital to exploit any potential dislocations that may occur.

Contributors to and Detractors from Performance

As shown on the following page, there were several contributors to Fund performance. The strongest was Dorian LPG, an operator of seaborne vessels that transport liquid petroleum gas (propane, butane) around the globe to satisfy growing demand for heating, cooking and industrial use purposes. Dorian has a new, efficient and environmentally friendly fleet that's captured growing LPG volumes and higher shipping rates. ERA Group prospered as the market recognized ERA's strong presence in the global helicopter market. While their core business of flying roughnecks to offshore oil & gas rigs is rebounding slowly, ERA also has a strong presence in search and rescue (SAR) a growing market as more governments and businesses seek fast responses to unanticipated "events". Long term holding Powell Industries also contributed strong

results. Powell makes electrical equipment/systems to facilitate electricity transmission from generators (utilities/independent power producers) to industrial users, mostly in the energy field. The US Gulf Coast is undergoing a massive buildout of energy infrastructure including pipelines, petrochemical plants and LPG/LNG terminals to accommodate oil and natural gas production. All of these require huge amounts of electricity which Powell helps facilitate.

Our biggest detractor was Williams Industrial Services, a provider of construction, maintenance and support services to energy, power and industrial end markets. After a long restructuring Williams is now profitable and is on the cusp of completing a refinancing to shore up the balance sheet. San Juan Royalty Trust was hurt by low natural gas prices which reduced distributions to shareholders, a situation we view as temporary. Gulf Island Fabrication, a provider of offshore marine services, was hurt by poorly executed, unprofitable contracts and recently hired an experienced CEO committed to implementing policies/procedures to ensure that only high potential projects are bid upon. Freightcar America builds freight railcars for railroads and leasing firms. Their core coal car market has declined in recent years and a new CEO is rationalizing costs and diversifying their product line to include more popular car types.

Outlook

A strong market year always raises the question: What could go wrong? For starters, the economic acceleration expected in 2020 might not show up. Much of the 2019 rally was driven by expanding P/E multiples fostered by near record low interest rates. Since rates probably won't go much lower in 2020, we'll need some strong earnings growth to sustain the rally. Another by-product of easy money is an explosion of debt which exists at multiple levels- corporate, government and personal. Any major default may lead to a contraction of credit, the lifeblood of any economy. Next, the trade wars could heat up again with China or other nations leading to renewed economic uncertainty. Or, inflation might exceed the Fed's target rate leading to a RISE in rates which is rarely good for the market. Finally, we have growing geo-political risks and a major election in 2020 with possible policy and tax changes as a result. Stay tuned.

By now you should have received your year end statement. Should you have any questions about your account or the Fund, don't hesitate to call or write. We are positioned to invest our cash as opportunities become available and are searching diligently for such opportunities. Your portfolio manager recently bought additional Fund shares and remains a major shareholder.

Notes to Financial Statements December 31, 2019

1.) ORGANIZATION:

Pinnacle Value Fund ("Fund") is registered under the Investment Company Act of 1940 as an open-end investment management company and is the only series of the Bertolet Capital Trust, a Delaware business trust organized on January 1, 2003 ("Trust"). The Trust's Declaration of Trust authorizes the Board of Trustees to issue an unlimited number of Fund shares. Each share of the Fund has equal voting, dividend, distribution, and liquidation rights. The Fund's investment objective is long term capital appreciation with income as a secondary objective.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services-Investment Companies."

2.) SIGNIFICANT ACCOUNTING POLICIES SECURITY VALUATION:

The Fund will primarily invest in equities and convertible securities. Investments in securities are carried at market value. Securities traded on any exchange or on the NASDAQ over-the-counter market are valued at the last quoted sale price on that day. Lacking a last sale price, a security is valued at its last bid price on that day, except when, in the Adviser's opinion, the last bid price does not accurately reflect the current value of the security. When market quotations are not readily available, when Adviser determines the last bid price does not accurately reflect the current value or when restricted securities are being valued, such securities are valued as determined in good faith by Adviser, in conformity with guidelines adopted by and subject to review of the Board of Trustees.

Fixed income securities are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when Adviser believes such prices accurately reflect the fair market value. A pricing service uses electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading lots of debt securities without regard to sale or bid prices. When prices are not readily available from a pricing service, or when restricted or illiquid securities are being valued, securities are valued at fair value determined in good faith by Adviser, subject to review of the Board of Trustees. Short term investments in fixed income securities with maturities of less than 60 days when acquired, or which are within 60 days of maturity, are valued by using the amortized cost method.

The Trust has performed an analysis of all existing investments to determine the significance and character of all inputs to their fair value determination. Various inputs are used in determining the value of each investment which are summarized in the following three broad levels:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities,

interest rates, prepayment speeds, credit risk, yield curves & similar data.)

Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining

fair value which may require a high degree of judgement)

The availability of observable inputs may vary by security and is affected by a wide variety of factors including type of security, liquidity and other characteristics unique to the security. If valuation is based on models or inputs that are less observable or unobservable in the market, determination of fair value requires more judgment. Thus, the degree of judgment exercised in determining fair value is greatest for Level 3 investments. Inputs used in valuing securities are not indicative of associated risks. Transfers between levels are recognized at the end of a reporting period. Transfer from Level 1 to Level 2 results when a security priced previously with an official close price (Level 1) has no official close price so the bid price is used. The below table summarizes the inputs used at December 31, 2019:

	Level 1	Level 2	Level 3	Total
Equity (a)	\$ 15,720,411	\$ 1,613,292	-	\$ 17,333,703
Closed-end & Exchange Traded Funds	1,491,595	-	-	1,491,595
Warrants	43,909	-	-	43,909
Money Market Funds	12,501,186	-	-	12,501,186
Investments at Market	\$ 29,757,101	\$ 1,613,292	-	\$ 31,370,393

(a) See Schedule of Investments for industry breakout.

There were no transfers between levels at period end.

The Fund did not hold any Level 3 assets (those valued using significant unobservable inputs) at any time during the year ended December 31, 2019. Therefore a reconciliation of assets in which significant unobservable inputs were used in determining fair value is not applicable.

The Fund has adopted the financial accounting reporting rules required by the Derivatives and Hedging Topic of FASB Accounting Standards Codification (FASB ASC). Fund is required to include enhanced disclosure that enables investors to understand how and why a fund uses derivatives, how they are accounted for and how they affect a fund's results. For the year ended December 31, 2019, the Fund held no derivative instruments.

SHORT TERM INVESTMENTS:

The Fund may invest in money market funds and short term high quality debt securities such as commercial paper, repurchase agreements and certificates of deposit. Money market funds typically invest in short term instruments and attempt to maintain a stable net asset value. While the risk is low, these funds may lose value. At December 31, 2019 the Fund held approximately 40% of net assets in money market funds. These include the First American Government Obligations Fund which normally invests in government and agency securities with an objective of maximum current income consistent with capital preservation and maintaining liquidity and the Invesco Government & Agency Fund.

As of December 31, 2019 the Fund had approximately 37% of its assets in First American Government Obligation Fund - Class Z (Ticker: FGZXX). The investment in this fund is approximately 0.06% of the fund's net assets which was approximately \$20.4 billion dollars at December 31, 2019. If the Adviser determines that it is in the best interest of Fund shareholders, the Adviser may redeem this investment. Further information on these funds is available at www.sec.gov.

SECURITY TRANSACTIONS AND INVESTMENT INCOME:

The Fund records security transactions based on a trade date. Dividend income is recognized on the ex-dividend date, and interest income is recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the lives of the respective securities.

INCOME TAXES:

Federal income taxes. The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Distribution to shareholders. Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. All short term capital gain distributions are ordinary income distributions for tax purposes.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is "more-likely-than-not" to be sustained upon examination by tax authority. Management has analyzed the Fund's tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on the prior three year returns or expected to be taken on the Fund's 2019 tax return. The Fund is not aware of any tax position for which it is reasonably possible that the total amount or unrecognized tax benefits will change materially in the next 12 months.

ESTIMATES:

Preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statement date and reported revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Fund imposes a redemption fee of 1.00% on shares redeemed within one year of purchase. The fee is assessed on an amount equal to the Net Asset Value of the shares at the time of redemption and is deducted from proceeds otherwise payable to the shareholder. For the year ended December 31, 2019 and year ended December 31, 2018, \$1,516 and \$4,757, of early redemption fees, respectively, were returned to the Fund through shareholder redemptions.

3.) INVESTMENT ADVISORY AGREEMENT

The Fund has entered into an Investment Advisory Agreement with Bertolet Capital LLC (Adviser). Under the Agreement, Advisor receives a fee equal to the annual rate of 1.25% of the Fund's average daily net assets up to \$300 million, and an annual rate of 1% of the Fund's average daily net assets thereafter. For the year ended December 31, 2019, Adviser earned \$419,547 in fees, and waived \$121,198 of such fees, which is paid yearly.

A Fund officer and trustee is also an officer and trustee of the Adviser. Advisory Agreement provides for expense reimbursement and fee waivers by Adviser, if Fund Annual Total Expenses exceed 1.24%, of average daily net assets through April 30, 2020.

Adviser will be entitled to reimbursement of fees waived or reimbursed by Adviser to the Fund. Fees waived or expenses reimbursed

during a given year may be paid to Adviser during the following three year period if payment of such expenses does not cause the Fund to exceed the expense limitation. Adviser is entitled to recoup \$87,199 through Dec. 31, 2021, and \$121,198 through Dec. 31, 2022.

4.) PURCHASES AND SALES OF SECURITIES

For year ended December 31, 2019, purchases and sales of investment securities other than U.S. Government obligations/short-term investments totaled \$4,016,681 and \$11,376,385, respectively.

5.) FEDERAL TAX INFORMATION

Net Investment income/(loss) and net realized gains/(losses) differ for financial statement and tax purposes due to differing treatments of wash sale losses deferred and losses realized after October 31, 2019. Differences between book basis and tax basis unrealized appreciation/(depreciation) are attributable to tax deferral of losses.

For the year ended December 31, 2019 the Fund paid a long-term capital gain distribution of \$0.315 per share, a short-term capital gain distribution of \$0.022, and an ordinary income distribution of \$0.002 per share.

For the year ended December 31, 2018 the Fund paid a long-term capital gain distribution of \$0.495 per share, a short-term capital gain distribution of \$0.037, and an ordinary income distribution of \$0.056 per share.

The tax nature of distributions paid during the year ended December 31, 2019, and the year ended December 31, 2018:

	<u>2019</u>	<u>2018</u>
Ordinary Income	\$54,700	\$ 652,094
Long Term Capital Gain	<u>\$697,509</u>	\$ 1,141,279
	\$752.209	\$1,793,373

At December 31, 2019, the components of accumulated earnings/(losses) on a tax basis were as follows:

Costs of investments for federal income tax purposes

costs of investments for redefar meonic tax purposes	<u>\$27,510,150</u>
Gross tax unrealized appreciation	\$ 5,194,659
Gross tax unrealized depreciation	(1,353,517)
Net tax unrealized appreciation	3,823,963
Undistributed ordinary income	150,441
Accumulated capital and other gains - net	(801,339)
Total Distributable Earnings	\$ 3,173,065

At December 31, 2019, the Fund had non-expiring capital loss carryforwards as follows: \$499,705 short-term and \$157,508 long-term. The Fund had post-October losses of \$144,126.

\$ 27.546.430

6.) SUBSEQUENT EVENTS

Management has evaluated Fund related events and transactions occurring subsequent to year end. There were no events or transactions that occurred during this period that materially impacted the Fund's financial statements.

7.) COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Fund may enter into contracts that may contain a variety of representations and warranties and provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, management considers the risk of loss from such claims to be remote.

8.) NEW ACCOUNTING PRONOUNCEMENTS

In August 2018, FASB issued Accounting Standards Update No. 2018-13 ("ASU 2018-13"), "Disclosure Framework – Changes to the Disclosure requirements for Fair Value Measurement," which amends the fair value measurement disclosure requirements of ASC Topic 820 ("ASC 820"), "Fair Value Measurement." ASU 2018-13 includes new, eliminated, and modified disclosure requirements for ASC 820. In addition, ASU 2018-13 clarifies that materiality is an appropriate consideration of entities when evaluating disclosure requirements. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019, including interim periods therein. Early adoption is permitted and the Fund has adopted ASU 2018-13 with these financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of Bertolet Capital Trust New York, New York

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Pinnacle Value Fund, a series of shares of Bertolet Capital Trust, including the schedule of investments, as of December 31, 2019, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of Pinnacle Value Fund as of December 31, 2019, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the Fund's auditor since 2003.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2019 by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

Expense Example (Unaudited)

As a shareholder of the Pinnacle Value Fund, you incur ongoing costs which typically include management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, July 1, 2019 through December 31, 2019.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratios and an assumed rate of return of 5% per year before expenses, which are not the Fund's actual returns. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Pinnacle Value Fund	Beginning Account Value	Ending Account Value	Expenses Paid During the Period*
	Account value	Account value	July 1, 2019 to
	<u>July 1, 2019</u>	<u>December 31, 2019</u>	December 31, 2019
Actual	\$1,000.00	\$1,063.18	\$6.45
Hypothetical (5% Annual Return before expenses)	\$1,000.00	\$1,018.95	\$6.31

^{*} Expenses are equal to the Fund's annualized expense ratio of 1.24%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

AVERAGE ANNUAL RATE OF RETURN (%) FOR YEAR ENDED DECEMBER 31, 2019

	1 Year	3 Year	5 Year	<u>10 Year</u>
Pinnacle Value Fund	10.66%	-0.81%	1.34%	5.30%
Russell 2000 Index	25.52%	8.59%	8.23%	11.83%

Chart assumes an initial investment of \$10,000 made on 1/1/2010. Total return is based on the net change in NAV and assuming reinvestment of all dividends and other distributions. Performance figures represent past performance which is not predictive of future performance. Investment return and principal value will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. All returns reflect reinvested dividends but do not reflect the impact of taxes.

Throughout the period shown, the investment adviser has voluntarily waived and reimbursed certain expenses of the Fund. Without such waivers and reimbursements returns would be lower.
